

# SOUNDGEAR FRAMES

Audio Glasses

## Style meets sound

JBL Soundgear Frames are the perfect fusion of sound and fashion. Made with the latest thermoplastic materials, the slim, flexible, lightweight frames are comfortable enough to wear all day, and come in three unique translucent colors and two stylish designs. (And yes, you can get prescription lenses installed in them by your optician.) Open the temples to turn the speakers on and close them to turn them off. When you're wearing them, just tap the JBL logo on either temple to adjust the volume, answer a call, or skip a song. JBL's unique ultra-thin 25mm\*9mm high amplitude speakers—powered by JBL OpenSound technology—are mounted inside the slim temples to enhance aesthetics and comfort. They deliver an immersive and engaging audio experience while still letting you hear the sounds around you. Connect the Soundgear Frames to the JBL Headphones app and customize the sound to your own preferences, or choose from 6 preset EQ curves. The JBL Soundgear Frames are where style meets sound.

## Features

- ▶ JBL OpenSound Technology
- ▶ Hands-free, crystal clear calls
- ▶ 8 hours of play time, plus more
- ▶ Rugged and water resistant
- ▶ Style and comfort
- ▶ Wear and play
- ▶ Convenient USB Type-C charging
- ▶ Instant and precise control
- ▶ JBL Headphones app

Audio Glasses

## Features and Benefits

### JBL OpenSound Technology

Each temple cleverly conceals JBL's unique ultra-thin 25mm\*9mm high amplitude rectangular speaker with a three-layer diaphragm, featuring a special algorithm for bass enhancement and frequency division processing. The JBL Soundgear Frames deliver an immersive, engaging and no-compromise sound experience while leaving your ears completely open, so you can still hear everything that's happening around you.

### Hands-free, crystal clear calls

The advanced beamforming 2-mic array on one temple, with dual-module environmental noise cancellation and nonlinear echo suppression algorithms, ensure you'll always have high-quality conversations. Plus, the hydrodynamic wind-proof design significantly reduces distortion from air friction. Simply put: enjoy crystal clear calls, wherever you are.

### 8 hours of play time, plus more

8 hours of playtime gives you music and calls throughout an entire day of work or fun. And if you need some more time, a quick 10-minute charge gives you another 2 hours.

### Rugged and water resistant

Not only are JBL Soundgear Frames lightweight and comfortable enough to wear all day long, they're also IP54 certified water resistant. So a little rain doesn't mean you have to cut your afternoon jog short.

### Style and comfort

The newly designed ultra-thin rectangular speakers are mounted inside the slim temples, greatly enhancing aesthetics and comfort. The durable, flexible, lightweight frames come in three trendy translucent colors—Onyx, Pearl, and Amber—all with a choice of square or round frames. The semi-transparent lenses feature UV A/B blocking. You can also have a professional optician fit your Soundgear Frames with prescription lenses.

### Wear and play

No need to find the power button. The speakers turn on when you open the frames and off when you close them.

### Convenient USB Type-C charging

Running out of juice? Quickly recharge both temples of the JBL Soundgear Frames at the same time with the USB Type-C Y-shaped cable provided in the box, or any other standard USB Type-C cable.

### Instant and precise control

The JBL logo doubles as an easy-to-find control panel that gives you fast, accurate control over your frames.

### JBL Headphones app

Use the JBL Headphones app on your device to tweak your sound and customize the gestures according to your needs. Choose from six EQ presets or a fully customizable 10-band equalizer to adjust highs, mids, and lows—so your music is just right for you.

## Technical Specifications

- ▶ Power supply: 5 V = 0.5 A \*2
- ▶ Material: Frame-Plastic (TR90), Hinge-metal (SUS316), Temple housing- Plastic (PC)
- ▶ IPX rate: IP54
- ▶ Driver size: 25mm x 9 mm/0.98" x 0.35" Dynamic Driver
- ▶ Frequency response: 100 Hz - 18kHz
- ▶ Impedance: 20 ohm
- ▶ Sensitivity: 114 dB SPL@1 kHz
- ▶ Maximum SPL: 90 dB
- ▶ Microphone sensitivity: -38 dBV/Pa@1 kHz
- ▶ Maximum operation temperature: 45 °C
- ▶ Bluetooth version: 5.2
- ▶ Bluetooth transmitter frequency range: 2.4 GHz - 2.4835 GHz
- ▶ Bluetooth transmitter power: <12 dBm (EIRP)
- ▶ Bluetooth transmitter modulation: GFSK, π/4-DQPSK, 8DPSK
- ▶ Dimensions Round shape (L x W x H): 160.87mm \* 150.54mm \* 53.68mm / 6.33" 5.93" 2.11"
- ▶ Dimensions Square shape (L x W x H): 160.21 mm x 152.54 mm x 50.83 mm/6.31" x 6.01" x 2.00"
- ▶ Battery type: Lithium-ion battery (110 mAh/ 3.8 V)
- ▶ Charging time: 2 hrs from empty

## What's in the Box

- 1 x Soundgear Frame audio glasses
- 1 x Carrying case
- 1 x USB Type-C Y-shaped charging cable
- 1 x Warranty / Warning (W / !)
- 1 x product QSG/ Safety Sheet (S / i)
