# MP350 Classic

USB Update Instructions

Required Materials:

Blank USB stick FAT32 formatted, maximum 8Gb.

Instructions:

- Download the software here: https://harman.widen.net/s/fv552gzlgh/jbl-mp350-classic-software-release-v1956
- Unzip and copy the unzipped file (named image.swu) to the USB stick.
- Power on the MP350 and allow it to boot until "READY" or "NO NETWORK" is displayed.
- Plug the USB stick into the back of the MP350.
- Using the remote control, press the settings button to open the settings menu.

	Menu Navigation Center button to select
	Menu button

- In the settings menu, navigate up/down the menu to "USB Software Update".
- Press the centre button of navigation pad to select this option, and again to confirm and start the update.
- The ST5 will display NET UPDATING for approx. 5 minutes, after which the unit will restart and will show HOST UPDATING and the Power LED will flash.

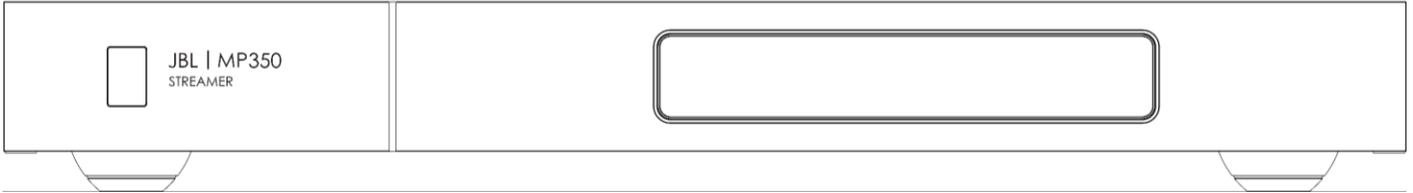

Do not remove power from the MP350 during this process.

- Once complete the unit will restart and the USB stick can be removed.
